

Vinay Sharma

(ROR Developer)

vinaysharma.contact@gmail.com | +91 9974440354 | [LinkedIn](#) | [GitHub](#) | Ahmedabad, India

Summary

Ruby on Rails Developer with **5+ years** of experience building scalable, high-performance web applications. Skilled in designing RESTful APIs, integrating payment gateways, optimizing backend performance, and deploying to AWS and Heroku. Collaborated with engineering and product teams across domains such as **POS, CRM, VoIP, Real Estate**, and **e-commerce** to build reliable backend systems, streamline integrations, and deliver production-ready solutions

Experience

Ruby On Rails Developer

07/2023 - Present

TechCompose Solutions

Ahmedabad, India

- Designed and implemented backend logic and API integrations for products in **Real Estate, Inventory**, and **VoIP** domains.
- Upgraded a Rails 6 API app to Rails 7 within two weeks**, resolving deployment and compatibility issues.
- Integrated Stripe into the VoIP system and enhanced the billing module by fixing bugs, adding service configurations, and automating key tasks to improve accuracy and stability.
- Collaborated with VoIP developers to debug call data inconsistencies, improving system reliability.
- Enhanced app performance by optimizing queries, adding indexes, caching responses, and managing background jobs.
- Actively participated in code reviews, internal discussions, and mentoring sessions for junior team members.

Ruby On Rails Developer

07/2020 - 07/2023

Bacancy Technology

Ahmedabad, India

- Delivered features across **POS, CRM**, and **e-commerce** platforms as part of various client projects.
- Built subsystems for the POS domain, including Superadmin panel, CRM, Marketplace, Kiosk, and Online Ordering.
- Developed APIs for mobile apps and implemented report modules with filters and export/import features.
- Implemented background jobs for email/SMS notifications, integrated payment gateways (e.g., Authorize.net, Magensa), and developed webhooks for third-party integrations.
- Participated in all development phases—planning, database design, implementation, testing, and deployment—and deployed applications to Heroku and AWS with streamlined processes.

Trainee Software Engineer

01/2020 - 06/2020

Bacancy Technology

Ahmedabad, India

- Supported senior engineers on live projects and contributed through feature development and bug fixing.
- Developed demo apps including a resume builder and job portal using Rails, HTML, CSS, and jQuery.
- Designed and managed PostgreSQL and MySQL databases for training projects.

Education

- BE in Computer Engineering**, VGEC, Ahmedabad, India 2017 - 2020
- Diploma in Computer Engineering**, R.C.Technical Institute, Ahmedabad, India 2014 - 2017

Skills

- Programming Languages & Frameworks:** Ruby, Ruby on Rails, jQuery, HTML, CSS/SCSS, Bootstrap 4/5, RSpec
- Databases:** MySQL, PostgreSQL, MongoDB (Intermediate)
- Tools & Platforms:** VS Code, Git, GitHub, AWS EC2, S3 Bucket, Heroku, Jira, Asana
- Others:** Hotwire & Stimulus (Intermediate), RESTful APIs, JSON, WebSockets, Webhooks, API optimization, Background Jobs, Caching, Agile Methodology

Awards

- Team of the Quarter-4 (2021 - Bacancy Technology)
- Team of the Quarter-1 (2023 - Bacancy Technology)

Languages

- English | Hindi | Gujarati - (All professional proficiency in written and spoken communication)
